9 December 2020

## **Joint MEP letter to Germany to suspend submarine export to Turkey**

Dear Chancellor,

in the light of ongoing tensions in the Eastern Mediterranean, as Greek and German Members of the European Parliament we call on the German government to immediately suspend the export of German submarines, its components and spare parts as well as all related maintenance activities.

Our appeal follows the European Parliament's resolution of 17 September 2020 on Arms export: implementation of Common Position 2008/944/CFSP (para 17) which:

*calls on the VP / HR, for as long as Turkey continues with its current illegal, unilateral actions in the Eastern Mediterranean that run counter to the sovereignty of any EU Member State (notably Greece and Cyprus) and international law, and does not engage in dialogue based on international law, to introduce an initiative in the Council for all EU Member States to halt arms export licensing to Turkey in accordance with the Common Position*

Turkey's recent explorative activities for natural gas deposits has led to an escalation of a simmering dispute between Turkey and Greece over maritime rights in the Eastern Mediterranean Sea.

We are extremely concerned about Turkey's threats of military action against EU Member States in the Eastern Mediterranean and fear that Turkey could employ submarines produced in Germany in this conflict.

Therefore, we urge the German government to undertake urgent measures to suspend in relation to Turkey the export of submarines, its components and spare parts - largely produced by German Thyssen Krupp Marine Systems and assembled in Turkey – as well as related maintenance.

Yours sincerely,
